NATIONAL GRADE SIX ASSESSMENT 2013

The results of the National Grade Six Assessment (NGSA) written on 25 March and 26 March 2013 will be released to schools shortly. Sixteen thousand eight hundred and eleven **(16,811)** candidates were entered for this assessment. These candidates also wrote the National Grade Two Assessment in 2009 and the National Grade Four Assessment in 2011. The results being released give a report on the candidates' overall performance at the three assessments.

A percentage of the marks gained at the Grade Two and the Grade Four Assessments was combined with the marks gained at the Grade Six Assessment in order to determine the candidates' overall scores. Five percent (5%) of each candidate's Grade Two score in Mathematics and English, and ten percent (10%) of the Grade Four score in the same subjects, were added to eighty five percent (85%) of each candidate's score in those subjects. The combined scores in Mathematics and English were added to the scores gained in Science and Social Studies.

The **highest possible standardized scores** obtainable were Mathematics - **134** English - **146**, Social Studies - **138**, and Science - **142**. The **highest possible total score** obtainable was **560**.
